

# ONLINE FREE WEBINAR

## ABOUT THE WEBINAR

As electrical and electronic products become increasingly complex and interconnected, ensuring Electromagnetic Compatibility (EMC) and controlling Electromagnetic Interference (EMI) have become essential for product performance, safety, and regulatory approval.

This webinar provides a introduction to EMI/EMC fundamentals, testing methodologies, and compliance requirements for a wide range of electrical and electronic products according to globally recognized standards.

## TOPIC

### “Fundamentals of EMI/EMC testing on various Electrical and Electronics products according to National/International standards”

#### WHO SHOULD ATTEND?

- ❖ Design & Development Engineers
- ❖ EMC/EMI Test Engineers
- ❖ Quality & Compliance Professionals
- ❖ Product Certification Teams
- ❖ R&D Personnel
- ❖ Engineering Students & Researchers

#### KEY BENEFITS

- ❖ Understand EMI/EMC principles
- ❖ Learn applicable standards for different product categories
- ❖ Understand testing instrumentation and methodologies
- ❖ Improve product reliability, safety, and market acceptance
- ❖ Gain insights from industry experts

## WEBINAR DETAILS

Date:  
29.06.2026

Time:  
2.30 PM to 5PM

Mode:  
Online Webinar

Speaker/Organizer:  
Ashutosh Pathak  
(Joint Director, CPRI)  
✉ ashutoshp@cpri.in

Participants may send their Name, Organization, Email id to the organizer
